SPRING SUMMER
_ UNDERWEAR 2024 _

UNDERWEAR

MAN & WOMAN

Well being on your skin

Underwear helps to optimise the features of the outerwear in terms of protection and breathability.

Specific materials and construction techniques, such as seamless manufacturing, improve the comfort and, hence, the overall performance.

The collection includes Ultralight (highly breathable garments for hot climates), Light (for warm and temperate climates), and Mid apparel (suitable for all seasons).

AIK KERMESS SS

02814901100C650.10
