*NALINI*

## **NALINI LAUNCHES AN INTEGRATED PAD & SUSPENDER SYSTEM FOR BIBSHORTS THAT REVOLUTIONIZES AND ENHANCES COMFORT AND PERFORMANCE TO THE HIGHEST LEVELS.**

A totally innovative new concept of fixing the pad, which starts from a substantial difference compared to the classic cycling shorts, where the braces are sewn to the bodice or to the waist.

Many cycling enthusiasts associate the Nalini brand not only with Made in Italy, the authentic one, but also with the first pad in synthetic fiber, made instead of the one in deerskin.

The common thread that unites the past with the present is manifested today with a new revolution developed by Nalini researchers.

After an intense period of testing and experimentation, the MOA research and development laboratory, the forge of every single Nalini innovation, has created an integrated "MOA pad + strap" system with the certainty that, once worn, it will be impossible to go back.

We are facing a totally innovative new concept of fixing the pad, which starts from a substantial difference compared to the classic cycling shorts, where the braces are sewn to the bodice or to the waist.

The construction of Contact provides that the suspenders are fixed directly to the pad with side seams and, through a series of passage slots placed on the shorts without bodice, they remain perfectly in place, guaranteeing excellent stability and allowing the pad itself to adhere and to perfectly follow every movement of the body while pedalling.

Basically, the system represents a new frontier of comfort in the saddle, because it gives the cyclist a sensation of protection never experienced before, but also of absolute freedom of movement, because the pad is constantly adherent to the body, as if it were itself a muscle in action to protect and enhance performance.

The gratifying experience that the cyclist will experience wearing Nalini shorts equipped with the integrated Contact system is a new, full connection with his bike.

# INTEGRATED PAD & BRACE SYSTEM

A cyclist is shown from a rear perspective, wearing a dark blue and white Nalini cycling bibshort. The bibshort features a prominent white circular logo on the lower back. The cyclist is also wearing black socks with the text "CYCLING IS NOT A CRIME" and black cycling shoes. The background is a blurred outdoor setting with red light trails.

## **CONTACT**

### **THE REVOLUTIONARY CONCEPT OF BIB SHORT**

# CONTACT BIB SHORT

03331901100C000.10

Our integrated pad & brace system for bib shorts revolutionises today's concept of pad placement and greatly enhances fit and comfort. The new construction creates channels through which the braces are guided directly to the pad, which is partially disjointed from the short itself to allow a more adaptive connection to the individual contours of the wearer's body shape. Through four welded channels placed at waist level, the braces are independent yet held perfectly in place, guaranteeing excellent stability and allowing the pad to adapt and follow every movement of the rider whilst pedalling. This system represents a new era in comfort providing protection and freedom of movement not achievable with traditional construction. The pad will constantly fit the body when worn, as if it were part of the rider.

The upper part of the bib-short is also minimal and apart from the braces themselves, the need for additional fabric for support is unnecessary. In the summer especially, this allows the rider to stay fresher and dryer with higher ventilation.

## TECHNICAL FEATURES

- Integrated braced pad system (patent pending)
- Reflective logos
- Bottom leg hem with 5,5 cm elastic with silicone gripping dots

## TECNICITÀ

- Sistema fondello bretelle (brevetto in corso di registrazione)
- Loghi rifrangenti
- Fondo gamba con elastico grippante h. 5,5 cm con micropunti in silicone

## Dyneema® PROTECTION

### DYNEEMA® PROTECTION KIT

*The most technological kit now available.*

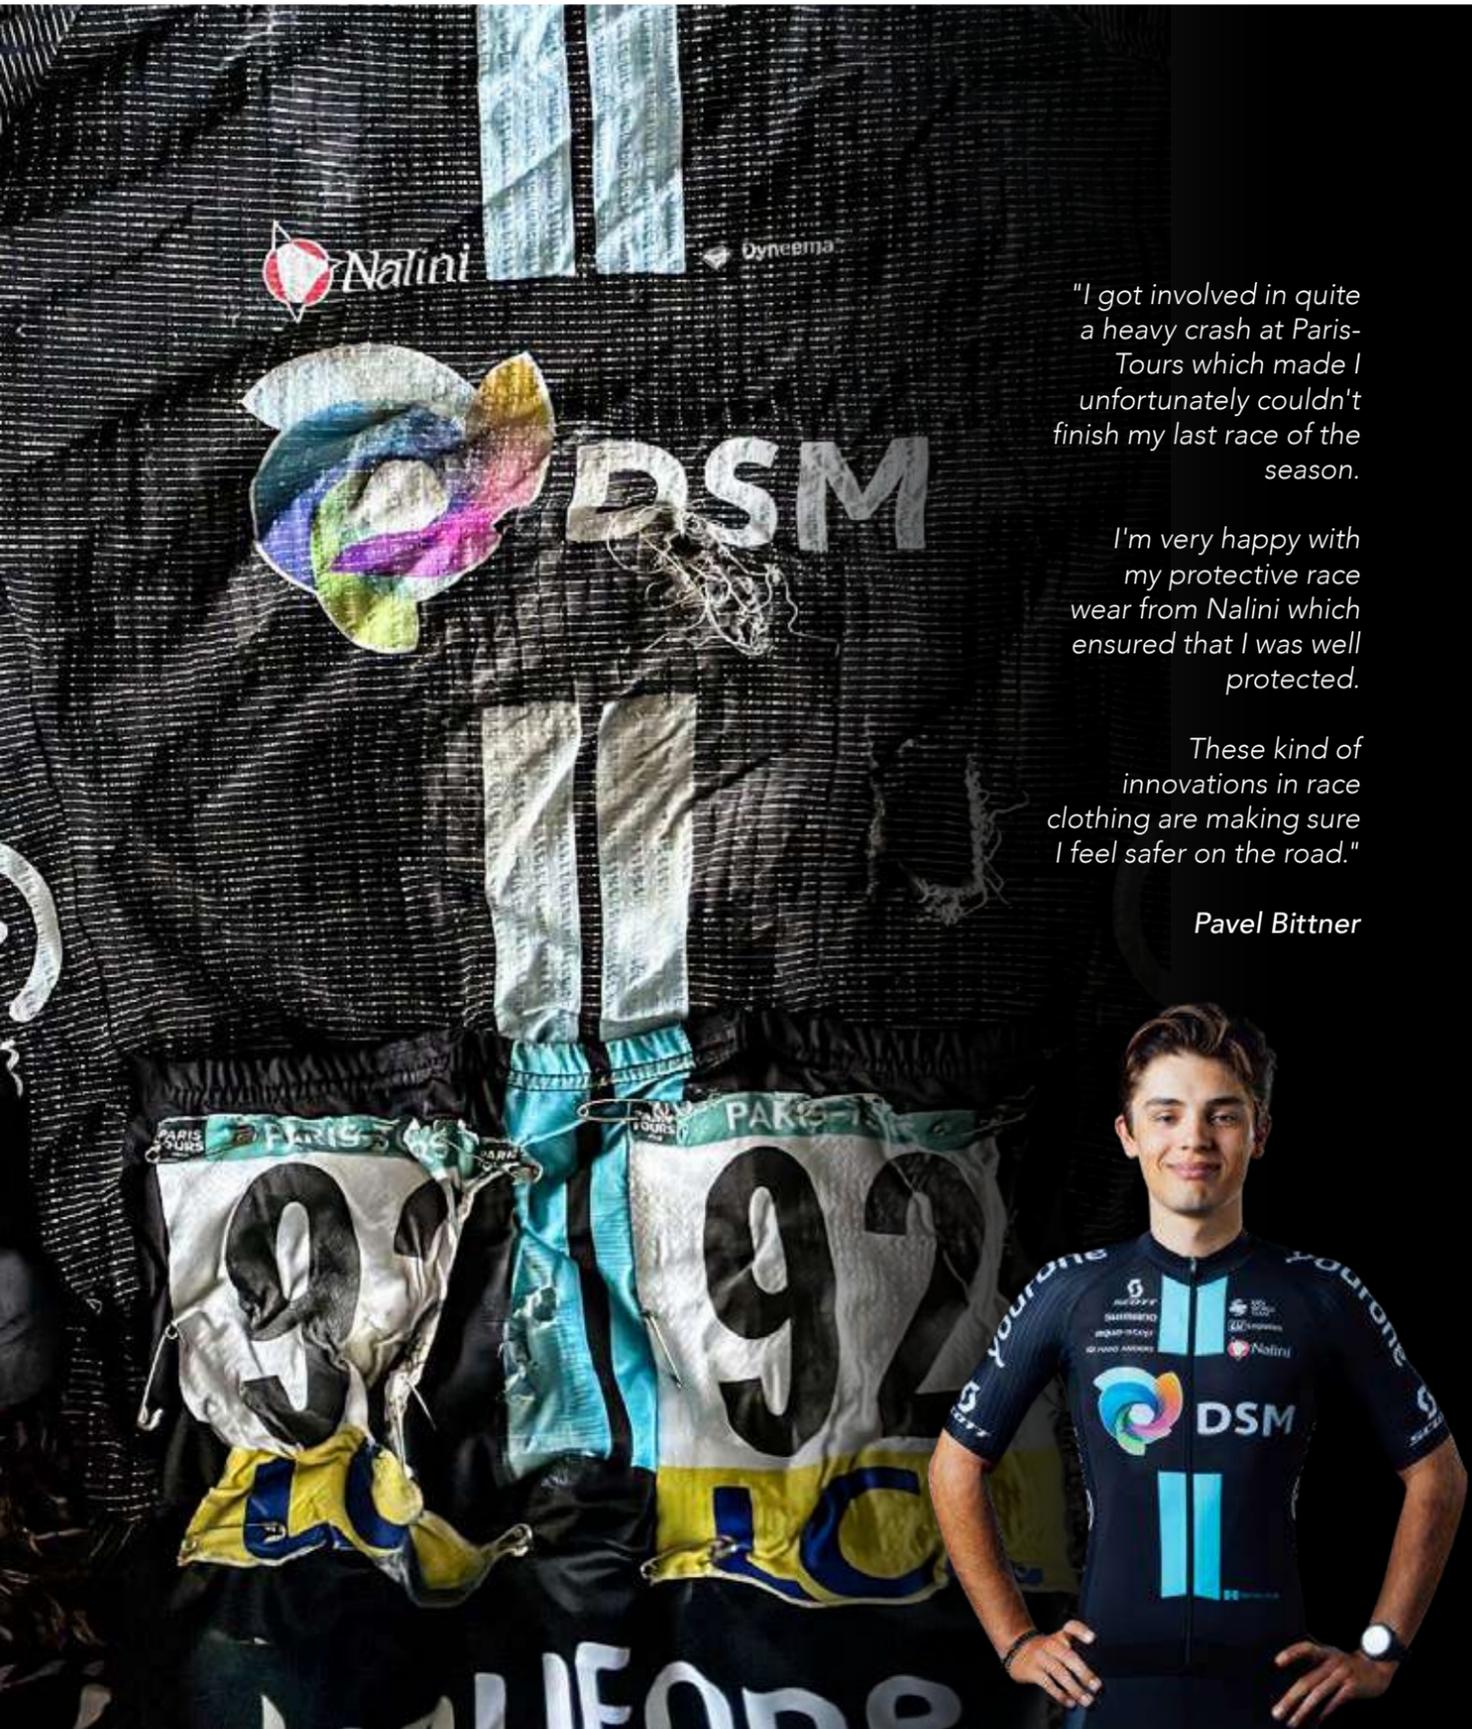

It's an unique synthesis that keeps the highest-performance features such as premium aerodynamics, breathability, compression, lightweight adding exclusive custom protective fibers

Dyneema® is a Polyethylene fiber with ultra-high molecular orientation with unique properties: It has an ultra high tensile strength, it is 15 times stronger than steel, it is light, it has high abrasion resistance, cut resistance, tear resistance.

Kinetech PROTEKT thanks to the structure and the Dyneema® cage prevents the fabric from the complete and instant rupture at impact and by reducing the risk of serious injuries the rider is also more focused on his performance.

The latest features developed for the world's best athletes in the world's most demanding races now integrated in our collection!

# STEEL SHIELD ON YOUR SKYN

"I got involved in quite a heavy crash at Paris-Tours which made I unfortunately couldn't finish my last race of the season.

I'm very happy with my protective race wear from Nalini which ensured that I was well protected.

These kind of innovations in race clothing are making sure I feel safer on the road."

Pavel Bittner

"I FEEL SAFER ON THE ROAD"

# DYNEEMA JERSEY

03321001100C001.10

This ergonomic race-fitted jersey combines the best materials for ventilation comfort and aerodynamics and on the specific area of the rider's shoulders it protects you with PROTEKT a Kinetech fabric which contains dyneema fibers a material 15 times stronger than steel. PROTEKT is light, has high abrasion resistance, cut resistance, tear resistance. Other interesting characteristics are: low coefficient of friction, high UV resistance, high chemical resistance and it is hydrophobic as well.

## TECHNICAL FEATURES

- Shoulder panels in Kinetech PROTEKT with DYNEEMA® fibers, abrasion and tear resistant
- Striped light fabric on front
- Full-length reverse YKK® cam-lock zipper
- Bonded border at hem on front
- Elastic with silicone gripper at hem on side and back
- Clean cut on sleeves' hem
- 3 functional rear pockets with reflective piping

## TECNICITÀ

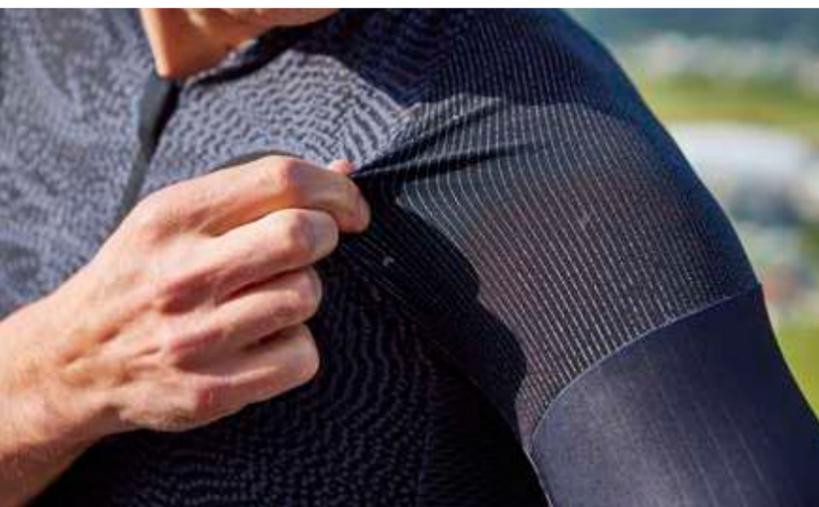

- Inserto protettivo alla spalla in Kinetech® PROTEKT con fibre Dyneema resistenti a taglio e abrasione
- Fronte in tessuto rigato leggerissimo
- Zip lunga rovescia YKK® cam-lock
- Elastico siliconato grippante a fondo maglia laterale e retro
- Fondo manica con taglio laser al vivo
- 3 funzionali tasche posteriori con piping rifrangente

# DYNEEMA BIB SHORT

03321401100C000.10

Performance and security are the key words for this bib short. Each cyclist knows the impact area in case of crashing. With this bib that area is protected through Kinetech PROTEKT, a fabric which retains all the performance properties of Kinetech and the abrasion and tear resistance capacity of Dyneema® yarn, a fiber that is 15 times stronger than steel.

Another Kinetech smooth and silky touch fabric is used also in the rest of the bib, and at legs' hem featuring a special silicone-free thin band which grips like rubber and is again part of the Kinetech materials.

## TECHNICAL FEATURES

- Hip panels in Kinetech PROTEKT with DYNEEMA® fibers, abrasion and tear resistant
- Kinetech® fabric in the entire short: high strength-stretch with muscle support capacity
- Upper part with super light mesh with thermotaped edging
- Reflective logos on side
- Bottom leg hem - no silicone - gripping structure in clean cut
- MOA high density pre shaped foam pad

## TECNICITÀ

- Inserto protettivo all'anca in kinetech® PROTEKT con fibre Dyneema resistenti a taglio e abrasione
- Tessuti kinetech® su tutto il resto del pantalone con proprietà di super elasticità e supporto muscolare
- Corpino posteriore in rete rigata superleggera senza cuciture e con bordi termoincollati
- Logo rifrangenti laterali
- Fondo gamba in tessuto navetta leggero e grippante per struttura con taglio laser
- Fondello MOA alta densità e preformato

# ERGO LINE

Where's  
your  
Finish  
Line?

Addressed to those who like speed  
and performance and want to be  
fitted in a "second skin apparel".

**ERGO**  
INSPIRED BY PRO TEAMS

# FAST SUIT

03334001100C000.10

Ergonomic and aerodynamic skinsuit, with soft striped fabric on sleeves and front panel. Inserts in lightweight mesh fabric on the back and underarm area to ensure maximum breathability. Clean cut on sleeves.

The lower part is entirely made from Kinetech® fabric with compression properties, on the crotch area you have abrasion resistance and on the side panels thanks to the use of a textured hexagonal design you have reduced air drag resistance in the speed.

The practical horizontal opening and the three rear pockets make this garment perfect for all road performances, both of sprint as well as of long distance.

## TECHNICAL FEATURES

- Striped soft touch light fabric on shoulders, sleeves and frontal panel
- Insert in mesh on back and underarm area for breathability
- Kinetech® Woven compression fabric at the legs, with aerodynamic texture on side panels
- Full-length YKK® camlock zipper, with inside flap and zip-garage
- Clean cut sleeves' hem
- 3 rear pockets with reflective piping
- Legs' hem in clean cut on half circumference and elastic with silicone dots for the other half
- Reflective details

## TECNICITÀ

- Tessuto leggero con mano vellutata a struttura rigata per maniche, spalle e petto
- Inserti schiena e ascellari in rete traspirante per una maggiore ventilazione
- Gambe in tessuto navetta, con disegno con proprietà aerodinamiche sulle bande
- Zip lunga YKK® camlock, con garage e patella lunga sotto la zip
- Fondo manica in taglio al vivo
- 3 tasche posteriori con piping rifrangente
- Metà fondo gamba con elastico grippante e il restante con tessuto taglio al vivo
- Dettagli rifrangenti

# LASER JERSEY

03253401100C000.10

This ergonomic jersey joins the best materials available and the most advanced technologies. It is the Nalini top of gamma for a road cyclist who looks for the aerodynamic and the highest breathability during the performance.

## TECHNICAL FEATURES

- Kinetech woven Fabric on sleeves, with 3D structure
- Striped light mesh fabric on side panels to create ventilation
- Full-length reverse YKK® cam-lock zipper
- Full elastic at hem with silicone gripper
- Clean cut on sleeves' hem
- 3 functional rear pockets with reflective piping
- White reflective transfers at chest and on the central rear pocket

## TECNICITÀ

- Tessuto a navetta con struttura 3D su maniche
- Fianchetti in rete leggerissima a righe per garantire una migliore ventilazione
- Zip lunga rovescia YKK® cam-lock
- Elastico siliconato grappante a fondo maglia
- Fondo manica con taglio laser al vivo
- 3 funzionali tasche posteriori con piping rifrangente
- Transfer bianchi rifrangenti al petto e sulla tasca centrale posteriore

# FAST JERSEY

03334101100C000.10

This aerodynamic jersey with striped fabric on shoulder and front panel, wraps the body as a second skin with a very special softness. A super lightweight fabric is used on the back and in order to enhance ventilation and transpiration an insert in mesh has been added at the center of the back panel and underarm area. Four different fabrics are used on this jersey, all placed and shaped according to the needs of the performance and aerodynamic, keeping the rider always fresh and dry at the same time.

## TECHNICAL FEATURES

- Striped aerodynamic fabric on shoulders and front
- Full-length reverse cam-lock YKK® zip
- Full-length flap under zip and zip garage on top
- Silicone elastic gripper on the back
- Seamless heat-welded hem on front and sides
- 3 rear pockets with reflective piping
- Reflective heat transfer on central pocket and on front chest

## TECNICITÀ

- Spalle e petto in tessuto rigato aerodinamico con una mano morbida e vellutata
- Zip lunga rovescia YKK® cam-lock
- Patella sotto lampo lunga con zip garage sopra
- Elastico siliconato grippante a fondo maglia dietro
- Fondo maglia davanti e laterale termoincollato senza cuciture
- 3 tasche posteriori con piping rifrangente
- Transfer rifrangente su tasca centrale e davanti a taschino

# FAST BIB SHORT

03336001100C000.10

That this bibshort improves the performance is not our opinion but the result of hundreds of tests in the wind tunnel. Fast Bib Shorts uses a specific fabric from the Kinetech® DRAGZERO range which thanks to its structure helps to reduce the drag coefficient.

Beside the highest technology available in fabrics, we have used the highest technologies in assembling it, such as ultrasonic bonding instead of stitching and bonded borders.

At legs' hem a special fabric will surprise you further: a silicone-free thin band which is soft like silk but grips like rubber.

## TECHNICAL FEATURES

- Side panels with structure DRAGZERO (less air drag above a certain speed)
- Kinetech® fabric in the entire short: high strength-stretch and anti abrasion.
- Upper part with super light mesh with thermo-taped edging
- Reflective logos on sides
- Bottom leg hem - no silicone - gripping structure in clean cut
- MOA high density pre shaped foam pad

## TECNICITÀ

- Gamba e cavallo interamente con tecnologia kinetech®
- Struttura DRAGZERO alle bande laterali
- Corpino posteriore in rete rigata superleggera senza cuciture e con bordi termoincollati
- Loghi rifrangenti laterali
- Fondo gamba in tessuto navetta leggero e grippante con taglio laser
- Fondello MOA alta densità e preformato

# GRADED BIB SHORT

03312001100C000.10

The peculiarity of this bib short is the complex graded fabric, providing diverse degrees of compression into different areas of the leg. This silk-like stretch-woven fabric gives a modulated muscle support and has an edge at legs' hem specifically studied to be gripping and stable on the leg

Combined with an upper part where braces are made of lightweight soft microfiber with no stitching - all components are in clean cut or thermo bonded - the result is an extremely performance oriented bibshort with the utmost comfort and a second skin effect.

## TECHNICAL FEATURES

- Graded muscle support kinetech fabric
- Silicone-free grip woven into the lower part of the leg
- Thermo taped assembling (minimal stitching)
- Super light veil mesh on back

## TECNICITÀ

- Tessuto a compressione graduata super stretch antiabrasivo tecnologia kinetech
- Bordo a struttura grippante integrato nel tessuto
- Assemblaggio con termoincollate, minime le cuciture standard
- Corpino super leggero e traspirante con rete velata sul retro

# GRAVEL LINE

## Get Lost To Find Yourself

Addressed to the growing world of gravel for the use on long distances, each jersey presents a specific technical focus together with a larger number of pockets and a more regular fit.

# MELANGE ZIP JERSEY

03334301100C000.10

Gravel Jersey made on the central body part of a blend of pre dyed polyamide with a special melange effect. This fabric is particularly soft, light and stands out for the freshness and the fast drying.

Side panels and sleeves are in a fabric similar to mesh open and breathable, but this woven fabric is abrasion resistant and particularly suitable for the use in gravel where often the track goes through bushes. Claim and logo are arranged in rubber print slightly in relief.

3 rear pockets with reflective piping for visibility.

## TECHNICAL FEATURES

- Main fabric in a blend of polyamide, melange effect
- Sleeves in super light and abrasion resistant fabric
- Full-length YKK® reversed cam-lock zip
- Half-length flap under zip at chest
- Silicone gripper at waist
- 3 rear pockets
- Reflective piping around the pockets
- Reflective details on central rear pocket

## TECNICITÀ

- Tessuto principale un mix di poliammide tinti con un effetto melange
- Maniche in tessuto leggerissimo e antiabrasivo
- Zip lunga rovescia cam-lock YKK®
- Patella sotto lampo al collo
- Fondo maglia con elastico interno grippante logato Nalini
- 3 tasche posteriori
- Piping rifrangente sopra le tasche
- Logo rifrangente alla tasca centrale dietro

# SUN COVER JERSEY

03330301100C000.10

This jersey is made of a pre-dyed fabric in polyamide with elastane, the touch of this fabric is particularly soft and comfortable, it guarantees a high UV protection from sunshine. The weight of the fabric is in this case slightly higher but air circulation is granted by a lighter fabric on side panels and some laser holes in the underarm area.

5 rear pockets: three in the classic rear position and two on the side panels, for a maximum carrying capacity. Reflective white heat transfers for high visibility.

## TECHNICAL FEATURES

- Compact and hydrophilic main fabric pre dyed
- Side panels in light fabric and underarm insert with ventilation holes
- Full-length reverse cam-lock YKK® zip
- Full-length zip cover and zip garage on top
- Microfiber elastic at waist with silicone microdots
- 5 pockets 3 traditional rear pockets +2 side pockets, all in mesh for better breathability
- Reflective logo details on front and back

## TECNICITÀ

- Tessuto compatto tinto, resistente e traspirante e ad asciugatura rapida
- Fianchi in tessuto super leggero con inserto sottomanica perforato
- Zip lunga cam-lock YKK®
- Patella sotto lampo lunga con zip garage sopra
- Fondo maglia con elastico in lunghezza in microfibra con puntini grappanti in silicone
- 5 tasche, 3 posteriori e 2 sui fianchi, tutte in rete per una maggiore traspirabilità
- Dettagli rifrangenti bianchi a taschino sul davanti e sulla tasca centrale dietro

# NEW GRAVEL SHIRT

03253701100C000.10

This shirt is the best interpretation of a new mood and a new manner of cycling in gravel context. It is technical tee shirt essential, but precious for the fabrics used. The central body is made of a special fabric very soft and silky on skin and nevertheless adapt also for long training. Sleeves are in resistant and anti-abrasion fabric suitable for use in woods and through bushes. It dries very fast and is particularly comfortable on bike as well as off bike.

## TECHNICAL FEATURES

- Main fabric is a blend of premium polyester with hydrophilic properties
- Sleeves in resistant fabric with anti-abrasion properties
- Silicone gripper at waist
- Side zipped pocket for essentials

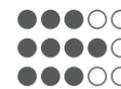

## TECNICITÀ

- Tessuto principale fiocco di Poliestere con effetto cotone
- Maniche in tessuto resistente e anti abrasivo
- Fondo maglia con elastico interno grippante logato Nalini

# GRAVEL BIB SHORT

03331701100C001.10

Bibshorts made of special sports lycra fabric available in beautiful fashion colors pre-dyed and with laser clean cut at legs' hem. It provides optimal muscle support and UV protection. On both side panels a pocket in resistant mesh has been applied, to be used for telephone or bars. At the legs' hem an inside silicone print ensures gripping.

## TECHNICAL FEATURES

- Compressive Lycra Sport fabric providing optimal muscle support
- Braces in soft microfiber elastic with microholes
- Clean cut hem with inside silicone grip
- Reflective white transfers at the back and both sides
- Mesh side pockets on both legs

## TECNICITÀ

- Supporto muscolare dato dalla capacità compressiva della Lycra Sport
- Bretelle in elastico microfibra morbido e perforato

# PATCHWORK BIB SHORT

03335201100C000.10

Amazing fashion colors have been combined in this original bibshort which won't let you unobserved. The lycra used is highly technical sports fabric which provides optimal muscle support and UV protection. Stitching of the different panels in flatlock to guarantee best comfort. The elastic at legs' end is in height 65 mm with silicone microdots on the inside.

## TECHNICAL FEATURES

- Compressive Lycra Sport fabric providing optimal muscle support
- Braces in soft microfiber elastic
- Silicone elastic gripper
- Logo patch at hip
- Reflective white logo transfers at both sides
- Visible color flatlock stitching harmonizes the passage from color to color

## TECNICITÀ

- Supporto muscolare dato dalla capacità compressiva della Lycra Sport
- Bretelle in elastico microfibra morbido e leggero
- Fondo gamba con elastico con micropunti in silicone grippante all'interno
- Patch logo in silicone alla natica
- Loghi rifrangenti bianchi ad entrambi i lati

# TEXAS VEST

03335901100C000.10

Texas Vest will attract your attention first for its amazing colors, it is in fact available in a beautiful color palette, but you will also immediately notice the technical aspects studied in all minimal details. The double way zipper helps the rider to decide in each moment and conditions where and how to be fully protected or get some ventilation. The back in mesh has the double function to ensure ventilation and give elasticity, also at the collar an elastic insert will allow perfect fit on the neck once zip is closed up. Two side openings will easily enable access to the pockets of the jersey.

## TECHNICAL FEATURES

- Beautiful range of colors in pre dyed windstopper fabric
- Back in mesh with reflective heat transfer logo
- Two side openings to have access to the pockets
- Two ways puller YKK zipper
- Bottom with silicone elastic hem

## TECNICITÀ

- Tessuto antivento in una interessante gamma di 5 colori moda
- Schiena in rete con transfer logo rifrangente bianco
- Zip con tiretto bidirezionale
- Due aperture laterali per l'accesso alle tasche

# COLOR & FUN LINE

## Back To The Essential

We speak here to a rider who wants to stand out on the road with bright colours, for visibility and security reasons, but also for fun, because riding in a new kit is also this... Is the pleasure to stand out with original colours and graphics.

A mix of race fit and comfortable fit to be able to address to different needs.

# FRESH JERSEY

03337001100C000.10

This jersey is conceived for the warmest and humid regions and days. It is fully made of an elastic mesh obtained from recycled Polyester. Thanks to this high breathability it is also suitable for indoor cycling.

## TECHNICAL FEATURES

- Full-length reverse cam-lock YKK® zip
- External elastic with silicone dots on side and back
- Seamless heat-welded hems at front
- Low collar of two cm only

## TECNICITÀ

- Zip lunga rovescia YKK® cam-lock

# NEW CLIMBER BIB SHORT

03333601100C000.10

This ergonomic and light bibshort is conceived for the warmest days and the hardest climbs, for this reason it is also adapted for indoor use. Side panels in micro perforated sport-lycra, crotch area in anti-abrasion woven fabric.

The upper part is minimal and consists of the two frontal braces and one single rear brace, all obtained from an elastic microfiber of special lightweight and soft touch, laser cut without stitching. A light and perforated elastic at legs' hem keeps it in position on leg.

## TECHNICAL FEATURES

- Light soft touch microfiber braces laser cut
- Sport Lycra with microholes at legs' side for an enhanced ventilation
- Bottom leg hem with light perforated elastic with gripping structure

## TECNICITÀ

- Bretelle ottenute in taglio laser da microfibra leggera con mano morbida
- Pannelli laterali in lycra traforata per una maggiore ventilazione
- Fondo gamba con elastico leggero e traforato grippante per struttura

# NEW COLOR BIB SHORT

03269301100C000.10 - 03269301100C001.10\*

Ergonomic bibshort which presents on side panels a textured and more breathable lycra. The upper part construction privileges the lightness thanks to the use of mesh, an innovative three dimensional bi-color elastic enriches the aesthetical aspect.

The elastic in height 65 mm at legs' hem, allowed us to give some color options to create a total look kit with our jerseys and it is provided on the inside of micro silicone dots for a gripping effect.

## TECHNICAL FEATURES

- Textured fabric at the side panels which improves the breathability
- Upper back panel made of breathable elastic mesh
- Braces in 3-D structure and bi-color elastic
- Lightweight printed microfibr elastic band with silicone inner gripper at legs' hem
- Reflective transfers at the back and side panels

## TECNICITÀ

- Tessuto operato su bande laterali per una maggiore traspirabilità
- Pannello posteriore in rete traspirante ed elastica
- Bretelle in elastico con struttura 3D e bicolore
- Elastico stampato con silicone grippante in microfibra leggera a fondo gamba
- Transfer rifrangente posteriore e laterale

# VELOCE BIB SHORT

03241201100C000.10

Ergonomic bibshort with clean cut and integrated silicone microholes.

The woven fabric used in this bib short ensures compression and muscle support, no stitching and no elastic interrupt the structure as the silicone dots are directly applied on the main fabric at legs hem.

Rear upper part made of stripped veil mesh and braces in soft microfiber. Crotch area in textured abrasion resistant lycra.

## TECHNICAL FEATURES

- Compression sport lycra with silicon dots at legs hem
- Veil striped mesh on upper back panel
- Reflective logos on back and sides
- Legs hem with silicone gripping in main fabric laser cut

## TECNICITÀ

- Tessuto indemagliabile compressivo e compatto con siliconatura interna al fondo gamba
- Corpino in rete rigata velata e bretelle in microfibra
- Loghi rifrangenti laterali e posteriori

# MTB & E-BIKE LINE

## Keep The Wild in You

This line is meant primarily for MTB & E-BIKE and its characteristics are adaptability and comfort for rides on bike-lanes too.

The lower parts are baggy shorts with some pockets, the jerseys are produced with anti-abrasion fabrics that enable them to carry a back sack without damaging the jersey or go through bushes without tearing threads on the jersey.

# E-JERSEY

03334501100C000.10

Nalini presents an e-bike jersey with a comfort fit and a technical focus on the needs of the e-bike rider. This jersey has a frontal wind stopper fabric at chest and stomach and on shoulders a nice silky touch anti abrasion fabric to allow carrying a sack without risking any scuffing on the garment.

The rest of the body is made with a resistant and quick-drying fabric, slightly more protective but with high transpiration capacity.

Three rear practical pockets plus a reflective heat transfer for visibility.

## TECHNICAL FEATURES

- Frontal wind stopper fabric at chest and stomach
- Abrasion resistant silky fabric at shoulders
- Reverse cam-lock short zipper
- Elastic band with silicone gripper at the waist
- 3 back pockets

## TECNICITÀ

- Tessuto antivento frontale
- Spalle in tessuto indemagliabile antiabrasivo
- Zip YKK® corta
- Elastico interno grippante al fondo maglia
- 3 tasche posteriori

# LOGO SHIRT

03333801100C000.10

T-Shirt simple and essential, but precious for the fabrics used, adapted to multiple situations, such as commuters, e-bike, urban cycling, it dries very fast and is particularly comfortable thanks to its silky touch.

This ebike and off bike t-shirt tells loud and clear to the world about the frustration of riding a bike on roads where often most people see the cyclist as an annoying presence, someone who is on the road without really a right to be there.

### TECHNICAL FEATURES

- Fabric is a blend of premium polyester with hydrophilic properties
- Longer back for specific use on bike

### TECNICITÀ

- Tessuto principale fiocco di Poliestere con effetto cotone
- Fondo maglia al retro più lungo per l'utilizzo in bici

# FULL SEASON LINE

For all  
weather  
conditions

Windproof, rainproof, mid-warm and protective, the garments in the Full Season line are ideal for cycling all year round, in all weather conditions.

Easy to wear and to carry with you, the garments in this line will ensure that kind of protection that on bike you often need to carry with you in many situation.

# MIRROR VEST

03354601100C000.10

The silver mirror fabric on the front has the usual function of windstopper, the mesh fabric on the back enables transpiration and evaporation of the sweat, while the stretchable lycra side panels allow elasticity and a nicely shaped fit to the garment.

## TECHNICAL FEATURES

- Front panel and shoulders in reflective windstopper
- Back in mesh with heat transfer logo
- Side panels in stretchable lycra
- Two reflective side tags
- Reflective binding at hem

## TECNICITÀ

- Tessuto antivento riflettente su fronte e spalle
- Schiena in rete con trasfer logo
- Fianchetti elastici
- Bordatura al fondo dietro rifrangente
- Due etichette ai fianchi rifrangenti

# WIND SWEAT SHIRT

03307501100C000.10

This off race sweatshirt with integrated hood is a perfect garment for commuters which combines important technicalities to a relaxed fit and an utilitarian look.

The windstopper lining at front integrates the function of a vest giving protection. Outfitted with three rear pockets that remind of a cycling jersey, it reveals a stylish look and a multifunctional fit.

Proving warmth, softness and functionality it is the ideal garment for cyclotourism and for all who conceive the bike as a lifestyle.

## TECHNICAL FEATURES

- Integrated hood
- Windstopper fabric lining at front with reflective dots
- Fully made of fleeced fabric for medium temperatures
- Cuff in double stretchable fabric
- Reverse YKK® cam-lock zipper
- Bottom hem in stretch fabric
- 3 Functional rear pockets

## TECNICITÀ

- Cappuccio
- Fodera in tessuto antivento sul davanti
- Tessuto garzato per temperature medie
- Polsino rimesso in tessuto elastico doppio
- Zip YKK® rovescia con tiretto cam-lock
- 3 Funzionali tasche posterior

# NEW WR MAN JACKET

03225701100C000.10

Windproof and water repellent jacket entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability.

The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket. The partial taping on the shoulders provides the garment medium protection from rain.

## TECHNICAL FEATURES

- 3layer fabric, weight 90 gr/m<sup>2</sup> with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at set-in sleeves
- Reversed full-length cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back sides
- Silicone elastic band at waist
- 3 rear pockets

## TECNICITÀ

- Tessuto 3 strati da 90 gr/m<sup>2</sup> con trattamento idrorepellente colonna d'acqua 20000 mm
- Termonastratura su spalle e giromanica
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con garage zip
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

# WR SS JACKET

03225901100C000.10

Innovative concept of windproof and water repellent jacket, done in SS version. The shorter sleeve makes this jacket adapt to all seasons, for those situations where a long sleeve jacket creates excessive sweating this jacket is the perfect compromise.

Entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket, especially in this ss version. The partial taping on the shoulders provides the garment medium protection from rain.

## TECHNICAL FEATURES

- 3layer fabric, weight 90 gr/m<sup>2</sup> with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at the set-in sleeves
- Reversed full-length cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back sides
- Silicone elastic band at waist
- 3 rear pockets

## TECNICITÀ

# IDEALE BIB SHORT

03221401100C000.10

Fleeced thermal bib short with a long-lasting water repellent treatment. This particular treatment protects the athlete from humidity and rain.

The upper construction is renewed with the eye-catching three dimensional bi-color elastic which gives a subtle and elegant touch of color combined to softness and high elastic support. The upper back panel is made of stretch thermal fabric micro-perforated for a better breathability.

## TECHNICAL FEATURES:

- Bib Shorts with ergonomic construction and DWR treatments
- Upper back panel made of microperforated stretch thermal fabric
- Reflective logos
- Microfiber elastic with silicone dots at leg's hem
- Bi-elastic anatomical pad
- Flat stitching for better comfort

## TECNICITÀ

- Pantaloncino con costruzione ergonomica e trattamento DWR
- Pannello posteriore in tessuto comfort stretch leggermente termico e microperforato
- Loghi rifrangenti
- Elastico in microfibra con silicone grippante al fondo gamba
- Fondello anatomico bielastico
- Cuciture piatte per maggior comfort

**FIT** RACE  
**FABRIC** WARM  
**TREATMENTS** MANTO D.W.R  
**SIZES** XS-4XL  
**PAD** ALL TERRAIN
